SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of the Treasury (''Treasury'' or the ''Department''), Bureau of Engraving and Printing (''BEP'') proposes to modify an existing system of records titled, ''Department of the Treasury, Bureau of Engraving and Printing (BEP) .048—Electronic Police Operations Command Reporting System (EPOCRS).''

The mission of the BEP is to develop and produce United States currency notes, trusted worldwide. BEP prints billions of U.S. currency notes—referred to as Federal Reserve notes—each year for delivery to the Federal Reserve System. Due to the sensitive nature of currency production operations, the BEP is generally closed to the public. Limited areas of the BEP, however, are accessible for public tours during certain authorized dates and times. Any individual entering, exiting, or on the BEP's property is subject to the rules of conduct as prescribed within the regulations, and violations may result in criminal prosecution. The BEP has a high degree of security due to producing Federal Reserve notes and individuals are placed on notice that they are subject to search and inspection of their person, personal items and property while entering, exiting, and on the property.

The BEP's Office of Security, Police Operations Division at the District of Columbia Facility (''DCF'') and the Office of Manufacturing Support, Security Division, Police Services Branch at the Western Currency Facility (''WCF'') are collectively known as the BEP Police. The BEP Police use the Police Operations Command Reporting System as a robust management and reporting system for investigations of criminal and/or administrative incidents, traffic accidents, and/or general concerns and complaints regarding BEP property and persons for which the BEP Police shares jurisdiction through a cooperative agreement, memorandum of understanding, or other arrangements BEP has with other federal, state, or local agencies or law enforcement offices or operations. The system increases efficiency and provides accountability by streamlining procedures and automating some paper forms that may contain personally identifiable information (PII) of individuals including members of the public visiting BEP at DCF and WCF.

Under the existing system of records, BEP Police may collect limited PII associated with investigations pertaining to BEP property and persons under BEP's Police jurisdiction. The BEP Police generates and manages its records primarily in paper form. The BEP Police is initiating comprehensive administrative improvements through an automated data system that facilitates
