the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Title: Retirement Plans; Cash or Deferred Arrangements Under Section 401(k) and Matching Contributions or Employee Contributions Under Section 401(m) and Guidance Under Section 110 of the SECURE 2.0 Act with Respect to Matching Contributions Made on Account of Qualified Student Loan Payments Amounts.

OMB Control Number: 1545–1669.

Regulation Project Number(s): TD 9169 and Notice 2024–63.

Abstract: The collections of information contained in TD 9169 are required by the Internal Revenue Service (IRS) to comply with requirements of sections 401(k)(12)(D) and 401(m)(11)(A)(ii) regarding notices that must be provided to eligible participants to apprise them of their rights and obligations under certain plans. This information will be used by participants to determine whether to participate in the plan, and by the IRS to confirm that the plan complies with applicable qualification requirements to avoid adverse tax consequences.

The information required by § 1.401(k)–2(b)(3) will be used by employees to file their income tax returns and by the IRS to assess the correct amount of tax. And, the information provided under § 1.401(k)–1(d)(3)(iii)(C) will be used by employers in determining whether to make hardship distributions to participants.

For Notice 2024–63, the information is required for payments on qualified education loans to be QSLPs upon which an employer may make matching contributions. Plan sponsors will use the collected information to process claims for QSLP matches for employees in the plan.

Current Actions: The IRS is increasing the TD 9169 number of respondents to 87,500. This is increasing the burden hours by 124,250 due to Agency estimate. The Notice 2024–63 increases the number of employees who are eligible to receive matching contributions to include employees who make QSLPs. This is increasing the burden for the OMB submission by 96,875 hours due to a new statute.

Type of Review: Reinstatement with change.

Affected Public: Business or other for-profit, Not-for-profit institutions and State, Local or Tribal Government.

Estimated Number of Responses: 475,000.

Estimated Time per Response: 28 minutes.

Estimated Total Annual Burden Hours: 221,125 hours.

Dated: January 20, 2026.

Kerry Dennis,

Tax Analyst.
